AMERICAN FISHERIES SOCIETY

The American Fisheries Society was organized in 1870 and was incorporated in 1911 in Washington, D.C. Its objectives are conservation, development, and wise utilization of recreational and commercial fisheries, promotion of all branches of fisheries science and practice, and exchange and dissemination of knowledge about fish, fisheries, and related subjects. The Society is an affiliate member of the American Association for the Advancement of Science, an adherent society of the American Institute of Biological Sciences, is represented in the U.S. National Academy of Sciences-National Research Council, and is a member of the Natural Resources Council of America.
